

Getting Started with Precheck™

If you've added Precheck to your Pearl suite—great news: your setup is complete, calibrated, and synced. Precheck is fully onboarded and ready to simplify your day.

With Precheck, you'll spend less time digging for patient insurance details and more time delivering care. Instantly access clear summaries of coverage so you can move faster, communicate smarter, and schedule with confidence.

What's Next

One-time Logins:

- Visit each payer's website once to activate Precheck syncing.

Don't see a supported site?

No problem—Pearl still retrieves data through our clearinghouses.

Helpful Resources:
